

# Assignment 5: Medium Fidelity Prototype Job Search Tracking

William Richard and Guvenc Usanmaz

March 28, 2013

## 1 Prototype Video

A video of the prototype being used can be found here.

<https://www.youtube.com/VIDEOURLHERE>

## 2 Features from Previous Assignments

We incorporated much of the design from previous assignments into this prototype. The syntactic flow of the user actions, as well as the general layout of the pages have remained the same from the original specifications and the storyboards.

## 3 Differences from design and implementation

There aren't many decisions that are different from the design, rather things that we were unable to implement from the design. These include, but are not limited to

- View object details on a separate page
- Editing objects
- Deleting objects
- Specifying relations between objects

## 4 Limitations of Prototype Caused by the Software
